

REFINZI

Product Vision Deck

Creative Brief for Presentation / Figma / PPT

Slide 1

REFINZI

Ambient AI for people who think faster than they type.

Tagline:

Don't leave your flow.

Slide 2

The Problem

AI is powerful.

People already know what they want.

But AI rarely understands their real intent on the first try.

Today's workflow:

Idea

↓

Open AI

↓

Write short prompt

↓

AI misunderstands

↓

Add more context

↓

Add constraints

↓

Add examples

↓

Add audience

↓

Several back-and-forth messages

↓

Finally get the right direction.

Slide 3

The Hidden Tax

The problem is not typing.

The problem is repeated explanation.

Every AI conversation starts with rebuilding context.

Users don't want to prompt.

They want AI to understand.

Slide 4

The Refinzi Insight

AI is already intelligent.

The missing piece is context.

Refinzi helps AI understand what you actually mean.

Without changing your original intent.

Slide 5

Click ✨

User writes:

"GTM Strategy"

↓

Highlights text.

↓

Click ✨

↓

Refinzi quietly enriches the request.

It adds:

- missing context
- structure
- clarity
- personality

- relevant details

Without breaking the original thought.

↓

User makes tiny edits.

↓

Send to any AI.

- ChatGPT
- Claude
- Gemini
- Grok
- OpenRouter

↓

High-quality output on the first attempt.

Slide 6

Hold ✨

Power Mode.

User highlights:

"GTM Strategy"

↓

Hold ✨

↓

Expert Prompt

Refinzi applies a reusable thinking framework.

Automatically builds:

- Expert Role
- Business Context
- Strategic Framework
- Constraints
- Output Structure

↓

User customizes if needed.

↓

Send to any AI.

↓

Expert-level results.

Slide 7

Current Workflow vs Refinzi

TODAY

User knows what they want.

↓

Writes a simple prompt.

↓

AI gives generic output.

↓

User adds context.

↓

Adds examples.

Adds constraints.

Several iterations later...

Gets the desired result.

WITH REFINZI

User highlights text.

Click ✨

Refinzi adds context without changing intent.

Small edits.

Send to any AI.

Great output from the first attempt.

Slide 8

Expert Prompt Library

Reusable thinking systems.

Not reusable prompts.

Examples:

 GTM Strategy

 Executive Communication

 Product Requirements

 First Principles Thinking

 Investor Updates

 Custom Workflow

The library preserves how you think.

Slide 9

Where It Works

Refinzi follows you.

- LinkedIn
- Slack
- Notion
- Google Docs
- ChatGPT
- Email

- Browser text fields

Same interaction.

Highlight.

Continue.

Slide 11

What Refinzi Actually Saves

- ✗ Not keystrokes.
 - ✗ Not copy-paste.
 - ✗ Not browser tabs.
 - ✗ Not AI credits.
 - ✓ Repeated explanation.
 - ✓ Lost context.
 - ✓ Prompt iteration.
 - ✓ Mental switching.
 - ✓ Your personal way of thinking.
-

Slide 12

The Category

ChatGPT = Intelligence.

Claude = Intelligence.

Gemini = Intelligence.

Refinzi = Context.

AI already knows how to think.

Refinzi helps AI think like you.

Slide 13

Long-Term Vision

The Prompt Library evolves into a portable personal context profile.

Your expertise.

Your frameworks.

Your communication style.

Your way of solving problems.

Available across every AI model.

Final Slide

REFINZI

Don't leave your flow.

AI already understands language.

Refinzi helps it understand you.
